

The background features a dark blue gradient with a series of curved, concentric lines that create a sense of depth and movement. On the right side, there is a glowing, grid-like pattern that resembles a digital or data interface, with lines that curve and warp as they recede into the distance.

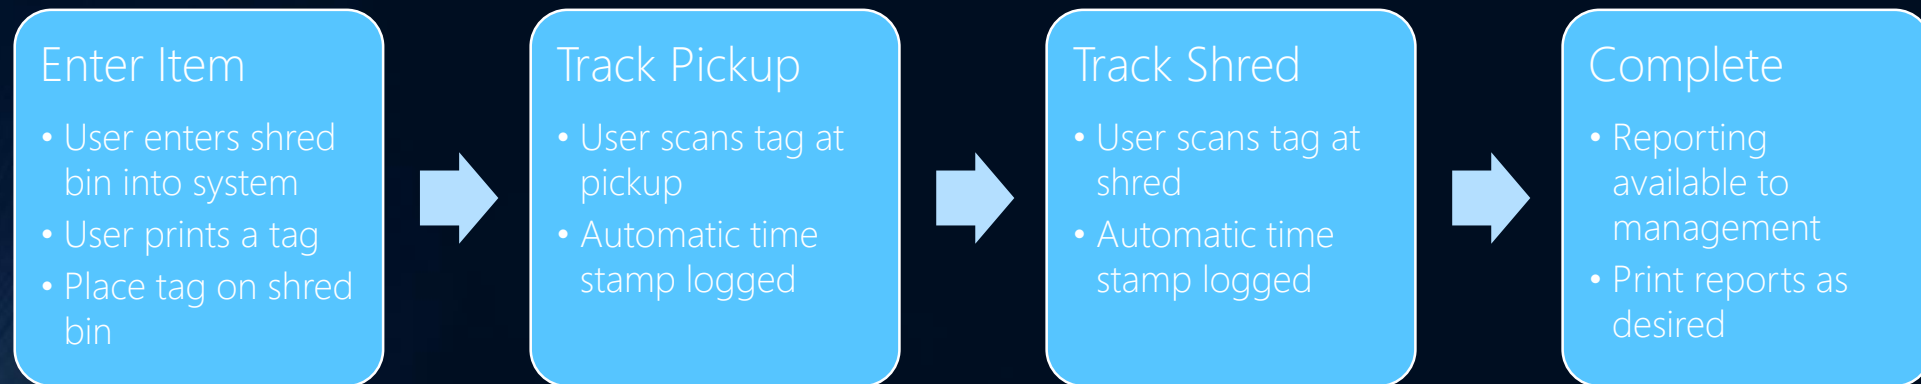

eCOD

ELECTRONIC CERTIFICATE OF DESTRUCTION

eCOD Mission

Provide an organization with the ability to assign, track, monitor and report status of document shredding activities in real time on any device from any global location. Delivering a robust intuitive User Interface (UI) for management of shredding procedures as well as a simple mobile interface for scanning and completing tasks.
